## **NEW YORK STOCKS** HOLD THE MARKET

Announcement of Big Bond Issue by Delaware and Hudson Taken as Hopeful Outlook.

NEW YORK, April 11.—Active interest in stocks to-day narrowed to the group of securities of the public utilities corporations supplying New York

ties corporations supplying New York City.

Consolidated Gas was brought into the movement by the action on the part of the company to obtain release of the funds tied up in the hands of court out of the charges in excess of the 80-cent rate, the enforcement of which has been successfully contested in the courts.

Copper securities suffered from some

rete, the enforcement of which has been successfully contested in the courts.

Copper securities suffered from some Positive depression on account of the continued decline in the price of the metal. A special explanation advanced to-day for that decline was the resale from China of some speculative holdings of copper bought previously. Discouragement was perceptible over the iron and steel outlook, and rumors were reiterated of an intended cut in prices as soon as financial conditions promise resources to the railroads to renew purchases of materials.

The announcement of an intended sale of \$20,000,000 out of a \$50,000,000 issue of bonds, to be authorized by the stockholders of the Delaware and Hudson, to fund other indebtedness, was regarded as an expression of confidence in the early improvement of the investment situation. The accumulation of the banking surplus explains the increasing case of the money market, and a further advance in sterling exclusing tendency to remit to foreign money markets. Some of the speculative bond issues made buoyant advances, but the bond division otherwise was dull and steady. Sales, par value, \$2,500,000. United Etates 2s, registered, have decided.
